

Its school time. I like playing with my friends.

We study in school.

We play in school with all friends. We should always be happy and have fun with others. We should share with others.

We should be friendly and not hit others. If am feeling uncomfortable and bad I can go to my teacher and talk. And never harm others.

I like to be in school. And its always fun to be in school.

After coming back from school I can share with my mom what happened in school.
